SHADOW OF THE GALLOWS THROWN OVER LEGISLATURE

State Bryan, Villa and Others Causes Governor to Urge Action on Part of Both Houses

HOUSE DECLINES: SENATE IS FIRM

Instead of Memoralizing

The shadow of the gallows was brown across both legislative chan bers yesterday afternoon. The houstook no notice of it at all and the senate declined to be stampede. Late in the afternoon' there wa transmitted to both houses a messame from the governor accompanied by opies of dispatches the governo received from Secretary of State Bryan, General Francisco Villa, and Governor Maytorena of Sonora Though these messages seemed to deal with matters with which the sensiers were not familiar, conveying the notion that they had been invited from this state. The message from Villa and Maytorena merel; stated that they had been informed that five of their countrymen had been condemned to death, though it e not known that any of them with the exception of Villalobo are Mexi-can citizens. Some of them, at least, were not born in Mexico.

The governor in his message feared American citizens in Mexico.

Second State Legislature of Arr-

"It becomes my duty to transmit of State of the United States, that the information conveyed by the Bryan, Villa and Maytorena, Governor's office relative to the apgraphic request of the State Department, copy of which is handed von herewith.

These three telegrams, of course are being transmitted together for the reason that each bears upon the same subject, namely, the possible effect of the impending hangings on international relations involving the United States and Mexico, and the possibility of subjecting Americans residing in Northern Mexico to unnecessary risk through the holding of an execution of the nature

outlined above. States, fully realizing the precarious

Captain Green of the Nebraskan reports that he did not see a submarine and the belief is expressed that the damage to his ship might have been due to a mine,

Certain it Was Torpedo LIVERPOOL, May 27.—Than steamer Nebraskan, before midnight. Captain Greene said: "I saw no submarine but am certain it was a torpede

which hit us." "Moreover," continued the captain submarine could not have failed to see our name and nationality, which was outlined in huge letters on our sides. Members of the crew of the Nebraskan agreed that the explosion was undoubtedly caused by ship was completely wrecked

Cause Still In Doubt

WASHINGTON, May 27.—The United States government had rebassador Page and Consul General Skinner at London and a statement from Captain Green of the Nebrasican but from all the information thus far available it is impossible to deter mine whether the explosion on the Nebraskan Tuesday was caused by mine or a torpedo. Many officials Naval officers say such an explo-sion as was described by Greene is a character more liftely to have been caused by a mine

Ambassador Page reported he had begun an inquir) by sending the naval constructors attached to the American embassy to make a complete examination on the Nebraskan's arrival at Liverpool. Any diplomatic action as a result of the incident will be deferred until there is deinite proof of the cause of the exosion. Should it develop that the ssel was torpedoed, the fact that er flag had been lowered a few minutes before, at sundown, would no bearing upon the action o the American government which has cise of the right of visit and search before attack on any merchantman, There is no internation convention in force relative to the laying of States and the Chilean delegates at German ambassador, formally presented a memorandum to the state department stating that mines laid

by Germany were of such character is to become innocuous when un-Previously the British government had given the United States similar assurances. Laying mine for the sole purpose of intercepting commerce is forbidden by the Hague convention but there has been general rule by which the prohibition could be interpreted, as it is claimed that all the mines used in the present war were laid for an offensive or defensive purpose. The United States ratified the Hague convention on the subject of mines, but the convention is in-

WOULD CREATE INDUSTRIAL NEW MARKET FOR COMMISSION EXCHANGE BILLS ENDS PROBE

[ASSOCIATED PRESS DISPATCH] WASHINGTON May 27 .- A definite plan for the creation of a market for bills of exchange drawn on banks of

the United States, payable in dollars was presented at the conference between the representatives of business

and financial interests of the United conference. It was said tonight the Guggenheim copper interests, the Bethtehem Steel and the Du Pont powder company, all of which have large interests in Chile, are back of the plan which involves an exchange aggregating at least twenty millions a year, Representatives of the United States

Chile exacted an export duty on nitrates and had provided that 90 day bills of exchange on London, payable in pounds sterling would be practically legal tender in payment of these duties and for other purposes. It was suggested that a law be enacted to make the brils drawn on the banks of the United States legal tender to the same extent to facilitate the business of the promised to arge their government to the invited the commission to go there were signs of war. The roads take the steps necessary. Later it was to the island and make a thorough were filled with long lines of transsaid the same proposal will be made to other South American countries where bills on London are legal tender.

Features of the conference of todays general session were the luncheon given by Secretary McAdoo and the trip to Mount Vernon on the presidential eacht Mayflower. Tomorrow there will be more group conferences and a general session at which the groups are expected to make reports.

It became apparent today that several of the South American nations intend to make vigorous effort to have some concrete plan for improvements of steemship facilities submitted to the conference before the adjournment on Saturday, Several countries particularly interested themselves through their representatives here are in favor of the encouragement of ship builders, either by direct or indirect subsidies, The Argentine delegation was anxi-
